

TECHNICAL DATA SHEET

POLISH SAFE ALUMINUM BRIGHTENER 111

A biodegradable heavy duty, high performance industrial detergent used for removing heavy deposits of soils on aluminum, stainless steel and polished aluminum. Polish Safe Aluminum Brightener 111 is manufactured specifically for polished aluminum and new aluminum. Won't harm either surface when used as directed. Will not attack glass. Our exclusive acid inhibitor blend protects the metal surface from acid attack. Polish Safe Aluminum Brightener 111 can be used as a step 1 in a two step cleaning process. Fully Biodegradable. Ozone & Smog = Does not carry ingredients that attack the earth's ozone, or contribute to smog.

Product Highlights

- High content of surfactants. Blended with a specific acid inhibitor package to function with our proprietary surfactant package to quickly attack and break down the dirt stains on aluminum and polished aluminum
 - Contains a citrus degreasing package to remove bug guts, brake dust, and other smut from metal surfaces
 - Economical per gallon cost
 - Leaves the surface looking "factory new". Excellent cleaning and degreasing properties
 - Effective in hard or soft water
 - The inhibitor package helps minimize the attack to aluminum that is not oxidized
-

Physical Description

- 22% Active Ingredients
- pH 5% Solution = < 2
- Specific Gravity = 1.07
- Does ship UPS
- VOC = 1 g/L
- Shelf Life = 2 years
- Freeze / thaw stable
- Softening = Excellent results in hard water.

Application Directions:

Dilute 10 to 1, apply with a pump-up sprayer, adjust the mix ratio according to your cleaning applications or severity. NEVER apply to a hot surface and do not leave on cleaning surface any longer than 1-2 minutes. Use with plenty of water, do not allow the Polish Safe Aluminum Brightener 111 to dry on the surface you are cleaning. Rinse surfaces thoroughly after cleaning with clear, cool, soft water.

Available in

5 Gallon Pail • 55 Gallon Drum • 275 Gallon Tote
